Huntingdon County Community Preparedness Survey

The Hazard Mitigation Steering Committee is assisting in distributing a community preparedness survey. This survey seeks to encourage public engagement in the Hazard Mitigation Plan by surveying individuals and households in the community. This survey asks a variety of questions in regard to emergency and disaster preparedness. Information that is collected will be useful, especially for the mitigation strategy section of the plan, as it will inform us as we review and develop education and outreach mitigation actions.

Let us know how we can serve you better.
