

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

Municipality/Organization: Alexandria Brough

Name and Title: Judy Scott/Council President

Please complete this worksheet for each new mitigation action. See Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards for sample mitigation actions to reduce risk from hazards. This resource is in the resource section of the project website: [https://www.pensylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pensylvaniiahmp.com/huntingdon_county_hmp)

Action Title	Acquisition of hazard prone lands, in their undeveloped state. Acquiring land located south of the 300 block of Main Street Alexandria and Bridge St.
Assessing the risk	
Hazard(s) addressed	Flooding, flash flooding, ice jams and environmental hazards, a continual problem to the borough
Describing the action	
Background/issue addressed	By the Borough's utilization of these lands in lessening the effects of flooding within in the borough, by protecting and eliminating any natural dams that is an issue in backflow of waters and trash being dumped into island.
Action description	Clear away excessive blockages, to help maintain and create a free flow of flood waters. Also protecting the islands natural beauty and resources for future generations.
Action category	Natural System Protections, developing and environment for Education and Awareness Programs
Existing or future action	Near future once obtained.
Evaluating the action	
Losses avoided (i.e., benefits)	By allowing the flood water to flow more freely past the borough, rather than into the borough in a less restrictive manner, this will lower the water levels. Thus, reducing property damage.
Cost estimate	N/A currently
Cost effectiveness (i.e., benefit/cost)	An undeniable savings by reducing flood waters.
Priority	Immediate

Implementing the action	
Responsible party	Borough of Alexandria
Potential partners	Army Corp. of engineers and Porter TWP.
Potential funding sources	Grant
Timeline	Immediate

Please email completed forms to [kellv.tessier@mbakerintl.com](mailto:kellv.tessier@mbakerintl.com)

## New Mitigation Action Form

Municipality/Organization: Alexandria Brough

Name and Title: Judy Scott/Council President

Please complete this worksheet for each new mitigation action. See Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards for sample mitigation actions to reduce risk from hazards. This resource is in the resource section of the project website: <https://www.pennsylvaniahmp.com/huntingdon-county-hmp>

Action Title	Redirect Commercial Trucks for ACCO
Assessing the risk	
Hazard(s) addressed	Transportation safety issue Tractor Trailer excessive traffic
Describing the action	
Background/issue addressed	Truck traffic for ACCO plant, safest path of least resistance is to enter route 305 from route 22 on the West end of town. Trucks entering town from Bridge street, travels the entire way through our residential areas unnecessarily, causing greater risk to our pedestrians.
Action description	Relocate signage to redirect truck traffic to enter from the West entrance of town and post additional signage at Bridge street end No Truck Traffic. Thus, eliminating intown ACCO truck traffic.
Action category	Plans and Regulations Structure and Infrastructure
Existing or future action	
Evaluating the action	
Losses avoided (i.e., benefits)	
Cost estimate	N/A
Cost effectiveness (i.e., benefit/cost)	
Priority	Immediate
Implementing the action	

Responsible party	Borough of Alexandria
Potential partners	Porter TWP.
Potential funding sources	N/A currently
Timeline	Immediate

## New Mitigation Action Form

Municipality/Organization: Alexandria Brough

Name and Title: Judy Scott/Council President

Please complete this worksheet for each new mitigation action. See Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards for sample mitigation actions to reduce risk from hazards. This resource is in the resource section of the project website: <https://www.pensylvaniiahmp.com/huntingdon-county-hmp>

Action Title	Shelton Avenue and High Street
Assessing the risk	
Hazard(s) addressed	Environmental Hazards, Flash Flood, Transportation
Describing the action	
Background/issue addressed	Excessive stormwaters have created an erosion on the sides of the roadway on High Street, the increased runoff made a drainage situation that is now blocked and prevented flow to be safely distributed. The culmination of which continues down to Main Street. This is met with more water backflow on the roadway, creating a dangerous situation.
Action description	Proper installation of new stormwater system along with build up of the berms of the roadway that has been eroded away from the stormwaters.
Action category	Plans and Regulations, transportation, Structure and Infrastructure
Existing or future action	Cleaning of drains restricting of storm drain and ground leveling
Evaluating the action	
Losses avoided (i.e., benefits)	
Cost estimate	N/A
Cost effectiveness (i.e., benefit/cost)	
Priority	Immediate
Implementing the action	

Responsible party	Borough of Alexandria
Potential partners	Army Corp of Engineers
Potential funding sources	N/A currently
Timeline	Immediate

## New Mitigation Action Form

Municipality/Organization: Alexandria Brough

Name and Title: Judy Scott/Council President

Please complete this worksheet for each new mitigation action. See Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards for sample mitigation actions to reduce risk from hazards. This resource is in the resource section of the project website: <https://www.pensylvaniiahmp.com/huntingdon-county-hmp>

Action Title	6 <sup>th</sup> Street
Assessing the risk	
Hazard(s) addressed	Environmental Hazards, Flash Flood, Transportation
Describing the action	
Background/issue addressed	Excessive stormwaters on 6 <sup>th</sup> Street, the increased runoff made a drainage situation, from the Heights in Porter Twp., that is now blocked at Legion and prevented flow to be safely distributed. The culmination of which continues down to Main Street. This is met with more water backflow on the roadway, creating a dangerous situation. It turns into the rapids during heavy rains.
Action description	Proper installation of new stormwater system along with build up of the berms of the roadway that has been eroded away from the stormwaters.
Action category	Plans and Regulations, transportation, Structure and Infrastructure
Existing or future action	Cleaning of drains restricting of storm drain and ground leveling
Evaluating the action	
Losses avoided (i.e., benefits)	Future flooding and property damage to homeowners in the community.
Cost estimate	N/A
Cost effectiveness (i.e., benefit/cost)	Long term priceless, loss prevention due to flooding
Priority	Immediate

Implementing the action	
Responsible party	Borough of Alexandria
Potential partners	Army Corp of Engineers
Potential funding sources	N/A currently
Timeline	Immediate

## New Mitigation Action Form For Alexandria, PA

Please complete this worksheet for each new mitigation action. See Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: <https://www.pennsylvaniahmp.com/huntingdon-county-hmp>

Action Title	Canal Street Pedestrian Bridge
Assessing the Risk	
Hazard(s) addressed	Transportation Accidents
Describing the Action	
Background/issue addressed	Due to the deterioration of a wooden pedestrian bridge that approximately 20', the bridge crosses Blue Run on the West Borough boundary, was removed due to the hazard condition it posed.
Action description	The bridge needed great repair. And now without the bridge another safety issue has occurred. The walkway is no longer available for the community to safely access the Alexandria / Porter Township Park. This causes people to be redirected to a heavily traveled Main street walk path. This increases the risk for pedestrian and children biking, when trying to access the park.
Action category	Structural Project Implementation.
Existing or future action	Current plans have been drafted, community involvement is ready,
Evaluating the Action	
Losses avoided (i.e., benefits)	Potential traffic pedestrian accidents
Cost estimate	Not Available
Cost effectiveness (i.e., benefit/cost)	Priceless, the cost is relative to the long term safety that will be provided by construction of the new bridge.
Priority	IMMEDIATE
Implementing the Action	
Responsible party	Alexandria Borough,
Potential partners	Porter Township
Potential funding sources	State waivers and grant , as well as community fund raising.

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Barree Township / Barree Township Supervisors
<b>Name and Title:</b>	Todd Musser / Chairman

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Winchester Road (t-539) @ Manor Hill Road Flooding</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Flood, Flash Flood, Ice Jam
<b>Describing the Action</b>	
Background/issue addressed	Tributary to Armond Run floods over T-539 (Winchester Road) and causes silt deposition and debris backup
Action description	Working with the County Conservation District to procure Low Volume Road Funding to raise the road profile
Action category	Road Structure Improvements
Existing or future action	Current – Contract to get the road and stream profiles mapped Future – Raise the road profile
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Road Washout, Culvert maintenance, Silt deposition
Cost estimate	\$75,000
Cost effectiveness (i.e., benefit/cost)	Preserves the road and protects a high quality trout stream from excessive silting
Priority	Intermediate
<b>Implementing the Action</b>	
Responsible party	Barree Township Supervisors
Potential partners	Huntingdon County Conservation District / Dirt and Gravel Road Program
Potential funding sources	Center for Dirt and Gravel Roads
Timeline	2020-2022

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Birmingham Borough
<b>Name and Title:</b>	Raymond Zeke, Chairman Borough Council

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniiahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	Storm Drainage
<b>Assessing the Risk</b>	
<b>Hazard(s) addressed</b>	Excess erosion and unsafe road travel
<b>Describing the Action</b>	
<b>Background/issue addressed</b>	Only two access exist and access maintenance is critical to safety.
<b>Action description</b>	Stabilization of road and storm drainage
<b>Action category</b>	Infrastructure
<b>Existing or future action</b>	Ongoing road maintenance and upgrade to stormwater system.
<b>Evaluating the Action</b>	
<b>Losses avoided (i.e., benefits)</b>	Substantial expense on new road paving
<b>Cost estimate</b>	\$25,000 - 50,000
<b>Cost effectiveness (i.e., benefit/cost)</b>	High road maintenance cost
<b>Priority</b>	High
<b>Implementing the Action</b>	
<b>Responsible party</b>	Raymond Zeke
<b>Potential partners</b>	Huntingdon County and PennDOT
<b>Potential funding sources</b>	Borough of General Furd, Borough of Liquid Fuels, and Huntingdon County Conservation District
<b>Timeline</b>	May 2020 - October 2022

## New Mitigation Action Form

Municipality/Organization:	Brady Township - HUNTINGDON COUNTY
Name and Title:	STANLEY J. GRESKO CODE ENFORCEMENT

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

Action Title	Sadlers Creek bed clean up
Assessing the Risk	
Hazard(s) addressed	This creek will flood during heavy rain causing damage to several properties
Describing the Action	
Background/issue addressed	This creek bed has a build up of river stones in several areas which causes overflows
Action description	The stones need to be removed to return the water level to normal.
Action category	Natural Systems Protection
Existing or future action	The township has contacted the necessary agencies for permits.
Evaluating the Action	
Losses avoided (i.e., benefits)	Avoid road + property damage caused by overflows
Cost estimate	unable to estimate - DEP will not issue permits
Cost effectiveness (i.e., benefit/cost)	Preserves public road structure and public road access \$150,000.00
Priority	Intermediate
Implementing the Action	
Responsible party	Brady Township
Potential partners	none
Potential funding sources	municipal General Funds + grants
Timeline	Depending on permits and Funding

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Clay Township, Dublin Township, Springfield Township
<b>Name and Title:</b>	Randy Anderson, EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Hazardous Materials Release Preparedness</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Hazardous Materials Release, Transportation Accidents
<b>Describing the Action</b>	
Background/issue addressed	There are several potential sites for hazardous materials releases within Clay, Dublin, and Springfield Townships. Specifically, Dublin Township contains a Waste Transfer Station. As these townships are highly rural, transport of large amounts of dairy and liquid manure are frequent occurrences and pose a potential risk for hazardous materials releases. Transport of large propane volumes has also been of concern.
Action description	Educate the public and township stakeholders about hazardous materials sites and releases.
Action category	Education and Awareness Programs
Existing or future action	
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Loss of life, environmental contamination, loss of property.
Cost estimate	
Cost effectiveness (i.e., benefit/cost)	
Priority	Low
<b>Implementing the Action</b>	
Responsible party	Clay Township, Dublin Township, Springfield Township Supervisors
Potential partners	Huntingdon County EMA
Potential funding sources	Township Annual Budget, Liquid Fuel Funds

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

Municipality/Organization:	Cromwell Township
Name and Title:	Dave Brenneman EM A

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniiahmp.com/huntingdon_county_hmp)

Action Title	McClure road Flooding
Assessing the Risk	
Hazard(s) addressed	McClure Rd Flooding every year that causes road closure and detours
Describing the Action	
Background/issue addressed	The road floods yearly from the Aughwick Creek causing the road to be closed
Action description	Building the road up with slate and placing tiles under the road to allow the water to pass through
Action category	Structural Project implementation
Existing or future action	Currently the township closes the road whenever it floods. Future building the road up with slate and placing tiles under the road
Evaluating the Action	
Losses avoided (i.e., benefits)	destruction of the road. Avoid shutting down the road which has a very long detour.
Cost estimate	\$150,000.00
Cost effectiveness (i.e., benefit/cost)	saving the road surface and not having to detour traffic
Priority	Intermediate
Implementing the Action	
Responsible party	Cromwell Township
Potential partners	None known at this time
Potential funding sources	Municipal General fund and any available grant monies.
Timeline	Dependant on future money sources

### New Mitigation Action Form

Municipality/Organization:	Dudley Borough
Name and Title:	Kim Tessier Secretary

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniiahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	Flood - ice - gushing water
<b>Assessing the Risk</b>	
Hazard(s) addressed	Water Rushes through
<b>Describing the Action</b>	
Background/issue addressed	Area along rd that gets flooding when it rains - causes other problems as well
Action description	Council members has looked at it - need to apply for Grant to help
Action category	insert new pipe
Existing or future action	Borough needs to look at the area & see what it will cost to fix
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Avoid washout - flooding - icy Cond. on 4th Street
Cost estimate	Unsure
Cost effectiveness (i.e., benefit/cost)	Preserve the Road so no more Damage
Priority	not emergency
<b>Implementing the Action</b>	
Responsible party	Dudley Borough
Potential partners	None
Potential funding sources	DCNR Grant for new year
Timeline	Depending upon grant money

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Henderson Township, Huntingdon County, PA 16652
<b>Name and Title:</b>	Robert A Coffelt, Chairman Henderson Township Board of Supervisors

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Guard rails on Numers Hollow Road T450 Henderson Township</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Township Road way safety hazard
<b>Describing the Action</b>	
Background/issue addressed	Henderson Township has recently made some major improvements to the depressions in this area of T450 out of our general fund, and recognizes that to improve safety in this section of T450 we would like to install 200 to 300 yards of metal guard rail
Action description	Seek funding for guard rail installation.
Action category	Roadway safety
Existing or future action	Seek grant funding thru Penn Dot or other county, state or federal agencies.
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Improved roadway safety
Cost estimate	No cost estimates available currently
Cost effectiveness (i.e., benefit/cost)	Providing personal and property safety
Priority	High
<b>Implementing the Action</b>	
Responsible party	Henderson Township
Potential partners	Pennsylvania State authorities/ Penn Dot
Potential funding sources	Grant capital
Timeline	As soon as funding can be secured

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Henderson Township, Huntingdon County, PA 16652
<b>Name and Title:</b>	Robert A Coffelt, Chairman Henderson Township Board of Supervisors

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Culverts Replacement on School House Road, T448 Henderson Township on the private property of the Humane Society</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Stream and Roadway drainage. Flooding into T448
<b>Describing the Action</b>	
Background/issue addressed	There are two drainage issues on this section of the drainage ditch next to Township Road T448. The issues are related to drainage culverts that clog on a regular basis. The first steel culvert of 28" +/- and the two black ADS culverts of 18" that are installed side by side down stream about 150 +/- yards. The Steel culvert is showing signs of deterioration and being undersized and subject to regular clogging. The Two18' ADS culverts are in a continuing state clogging and like the steel culvert needing to be cleared of obstructions on a regular basis
Action description	Since this problem is on private property but is has a direct negative effect on the drainage of T448, School House hollow , the township will most likely need to work with the Huntingdon County Conservation District as well as the Department of Environmental resources as well as other federal/ state agencies and the landowner to correct the problems.
Action category	High
Existing or future action	Township will need to set up an initial meeting with the Landowner and the Huntingdon County Conservation District to see what is required to move forward.
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Avoid washout or damage to T448, Schoolhouse road and prevent downstream runoff.
Cost estimate	Currently unknown
Cost effectiveness (i.e., benefit/cost)	A solution to this problem would help to preserve the roadway and eliminate damage to private property. The corrective action would also mitigate runoff and or silt issues.
Priority	High
<b>Implementing the Action</b>	
Responsible party	Private landowner
Potential partners	Henderson township, state and federal agencies

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

---

Potential funding sources	Grant funding and private landowner funding.
Timeline	Henderson Township would like to begin work on a solution as soon as funding is available.would like

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Henderson Township, Huntingdon County, PA 16652
<b>Name and Title:</b>	Robert A Coffelt, Chairman, Board of Supervisors, Henderson Township

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Ellenberger Road T465 turn access off Numers Hollow Road T450 in Henderson Township.</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Potential Traffic Hazard, Transportation Accidents, Pedestrian accidents and safety.
<b>Describing the Action</b>	
Background/issue addressed	Ongoing issues with this intersection. We have had numerous complaints about the dangers related for this turn area, to include visibility and limited turning ability of vehicles. Currently it is only suitable for residential vehicles. Larger delivery trucks and buses find it difficult if not impossible to negotiate with the current available turning Radius.
Action description	We will need the Township engineer and most likely Penn Dot to assess the problem for much needed improvements.
Action category	Road Improvement Project
Existing or future action	Contact Dirt and Gravel and or Penn Dot to see if grant money is available to correct this area. Henderson township may need to see if their own general fund can supply the necessary capital for a solution.
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Avoid vehicle accidents and or damage.
Cost estimate	We do not have a current cost analysis or budget projection
Cost effectiveness (i.e., benefit/cost)	Improve public safety
Priority	High
<b>Implementing the Action</b>	
Responsible party	Henderson Township
Potential partners	None currently
Potential funding sources	Township General Fund, Grant funding.

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

---

Timeline	We would like to fix this problem in 2020 if possible. Timeline is dependent on funding or available Township capital.
----------	------------------------------------------------------------------------------------------------------------------------

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Hopewell Township
<b>Name and Title:</b>	Pine Ridge Road Landslide Phase 1 – Geotechnical Evaluation and Engineering Design

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Impacting PennDOT SR 3003 Weaver Falls Road &amp; TR 369 Pine Ridge Road</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Landslide, transportation accidents, road closure detouring emergency response
<b>Describing the Action</b>	
Background/issue addressed	When Raystown Lake was developed by the US Army Corps of Engineers as a flood control project, Pine Ridge Road was relocated to the north and reconstructed by cut and fill activities to widen Weaver Falls Road along the perimeter of the lakeshore. In the 50 years since construction, the hillside has been shifting and sliding rock, soil and vegetation from Pine Ridge Road onto Weaver Falls Road below. There have been significant landslides in 2011 and most recently in 2018.
Action description	Conduct a Geotechnical evaluation of the hillside on Pine Ridge to determine the underlying weaknesses and prepare an Engineering Design to stabilize the roadway.
Action category	Structural, Health & Safety
Existing or future action	The Township Supervisors engaged the Township Engineer to visit the site after the landslide on December 24, 1018. The structural engineers recommended that the roadway was too unstable to allow 2 lane traffic at the location of the slide. The Supervisors installed guiderail to restrict traffic to 1 lane on the north side of the road. Although considered, long-term closure of the road is dangerous because Emergency Service Responders from the Saxton area use Pine Ridge Road to quickly reach the James Creek area over the ridge. This route is needed during significant flooding events as the only route to enter Saxton Borough from the north is the bridge over the Raystown Branch of the Juniata River floods the SR 0913 Bridge west of the Borough. The Township has received proposals from Geotechnical Consultants to conduct drilling and materials testing to make recommendations for stabilizing the slope. The report would drive the Engineering Design for a permanent stabilization of Pine Ridge Road.
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Unexpected roadway hazards, preservation of an important emergency access route, damage to the PennDOT Road.
Cost estimate	Geotechnical Evaluation - \$25,000 Engineering Design - \$30,000
Cost effectiveness (i.e., benefit/cost)	The Township has in the past 2 years made over \$120,000 of drainage and surface improvements to Pine Ridge Road north/uphill from the landslide with County Conservation District Low Volume Road grants and Township Liquid Fuels funds. Preserves public road structure and Emergency Response access. Saves costs to

<b>Action Title</b>	<b>Camp Road (T-546) Culvert Replacement</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Flood, Flash Flood, and Ice Jams
<b>Describing the Action</b>	
Background/issue addressed	Present double cross-pipe culvert situation causes jams from ice and debris accumulation. Frequently washes out roadway during heavy rains and spring thaw runoff.
Action description	Replace double cross-pipes in culvert with one large capacity pipe, install stone headwalls and sidewalls. Build up road surface as needed to accommodate larger cross-pipe.
Action category	Structural Project
Existing or future action	Road will be proposed for DGLVR consideration.
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Continued erosion of road base and road surface.
Cost estimate	\$40,000
Cost effectiveness (i.e., benefit/cost)	Eliminate yearly rebuilding of headwalls, debris cleaning and road surface repairs.
Priority	Intermediate
<b>Implementing the Action</b>	
Responsible party	Jackson Township
Potential partners	DGLVR Program
Potential funding sources	Grant funding/ Liquid Fuels funds
Timeline	Unknown at this time.

## New Mitigation Action Form

Municipality/Organization:	Lincoln Twp.
Name and Title:	Brian Hunsicker EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

Action Title	Culvert Cleaning
Assessing the Risk	
Hazard(s) addressed	Storms can cause road erosion if cross pipes are not kept clear
Describing the Action	
Background/issue addressed	Continually make sure culvert inlets are kept clear to prevent road erosion
Action description	Keeping cross pipe inlets open before storms
Action category	
Existing or future action	Continue to monitor storms, so pipes can be kept clear
Evaluating the Action	
Losses avoided (i.e., benefits)	Road erosion
Cost estimate	\$5,000.00
Cost effectiveness (i.e., benefit/cost)	Cost of losing sections of road
Priority	High-during storms
Implementing the Action	
Responsible party	Lincoln Twp.
Potential partners	none
Potential funding sources	Township funds
Timeline	Dependent on storms

## New Mitigation Action Form

<b>Municipality/Organization:</b>	Logan Township, Huntingdon county
<b>Name and Title:</b>	Clint Mowrer Township EMA

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	<b>Rural Water Supply</b>
<b>Assessing the Risk</b>	
Hazard(s) addressed	Water Supply for Rural fires (example Barn, house, equipment, wild fire)
<b>Describing the Action</b>	
Background/issue addressed	Better water supply
Action description	Get better access to water by putting in driveways to streams and improving dry hydrates
Action category	
Existing or future action	We have dry hydrants that need repaired or improved
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	Better able to put any kind of fire out quicker to avoid more loss
Cost estimate	\$7,000 to \$14,000
Cost effectiveness (i.e., benefit/cost)	
Priority	1.9
<b>Implementing the Action</b>	
Responsible party	Logan township
Potential partners	Not sure
Potential funding sources	Not sure

# Huntingdon County 2020 Multi-Jurisdictional Hazard Mitigation Plan Update

---

Timeline	In the next 5 years
----------	---------------------

### New Mitigation Action Form

<b>Municipality/Organization:</b>	Borough of Mapleton
<b>Name and Title:</b>	Chris Corbin Council President, Michael Corbin EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniiahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	alternate traffic route
<b>Assessing the Risk</b>	
Hazard(s) addressed	there is only one way in and out of the east end of the community that spans the creek that divide our town. The majority of the population this is the only way in or out.
<b>Describing the Action</b>	
Background/issue addressed	Another bridge could be constructed at the ends of 2 dead end streets as a second means of getting in and out
Action description	construct a bridge over Scrub Run creek to connect Ridge and Glenwood
Action category	infrastructure
Existing or future action	future
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	by doing so, it will provide a second means of getting out and into the community
Cost estimate	
Cost effectiveness (i.e., benefit/cost)	This is a public safety improvement as there is only one means of getting in and out in event of an emergency. (Ex: mainline railroad goes through our town, if a derailment happen involving hazardous materials, there would be no way to evacuate people)
Priority	
<b>Implementing the Action</b>	
Responsible party	Borough of Mapleton
Potential partners	county planning, DCED, DOT, USDA, PEMA
Potential funding sources	Block grants, liquid fuels funds,
Timeline	future

### New Mitigation Action Form

<b>Municipality/Organization:</b>	Borough of Mapleton
<b>Name and Title:</b>	Storm Water Drainage upgrade Chris Corbin, Council President, Michael Corbin EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniiahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniiahmp.com/huntingdon_county_hmp)

<b>Action Title</b>	Storm Water Management
<b>Assessing the Risk</b>	
Hazard(s) addressed	water from storm run off runs down majority of streets
<b>Describing the Action</b>	
Background/issue addressed	current drainage system is very old not capable
Action description	improve and expand storm water drainage system
Action category	infrastructure
Existing or future action	future
<b>Evaluating the Action</b>	
Losses avoided (i.e., benefits)	prevent flooding of streets, yards and water damage to same
Cost estimate	not known
Cost effectiveness (i.e., benefit/cost)	n/a
Priority	this is a high priority due to the impact on infrastructure and publ
<b>Implementing the Action</b>	
Responsible party	Mapleton Borough
Potential partners	County Planning, DCED,
Potential funding sources	CDBG, state liquid fuels, USDA
Timeline	depends on funding

## New Mitigation Action Form

Municipality/Organization:	Marklesburg Borough
Name and Title:	Brian Hunsicker EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

Action Title	storm water runoff
Assessing the Risk	
Hazard(s) addressed	Flooding
Describing the Action	
Background/issue addressed	The main stormwater runoff from fields above the borough flows to the center (middle) of the borough causing flooding to homes below the inlet.
Action description	To continually monitor the inlet before the storms to make sure it is open
Action category	
Existing or future action	Continue to monitor situation
Evaluating the Action	
Losses avoided (i.e., benefits)	Flooding of structures below the inlet
Cost estimate	\$1,000.00
Cost effectiveness (i.e., benefit/cost)	Cost of Flood damage to homes and barns
Priority	High during storms
Implementing the Action	
Responsible party	Marklesburg Borough
Potential partners	none
Potential funding sources	Borough funds
Timeline	Dependent on storms

**New Mitigation Action Form**

Municipality/Organization: MORRIS TWP.  
 Name and Title: CRIST FELLMAN EMC

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

Action Title	DEVELOP EARLY WARNING SYSTEM FOR PUBLIC NOTIFICATION
Assessing the Risk	
Hazard(s) addressed	LACK OF WARNING TO RESIDENTS ABOUT POSSIBLE OR CURRENT SITUATIONS
Describing the Action	
Background/issue addressed	PAST EVENTS OCCURRING WITHOUT CITIZEN WARNINGS
Action description	LOOKING INTO SOCIAL MEDIA PLATFORMS.
Action category	INVESTIGATIVE STAGE FOR SOLUTIONS
Existing or future action	IMPLEMENT WARNING SYSTEM
Evaluating the Action	
Losses avoided (i.e., benefits)	DEPENDENT ON SITUATION/HAZARD
Cost estimate	UNKNOWN
Cost effectiveness (i.e., benefit/cost)	MINOR COST VS POTENTIAL SAVINGS IN LOSS OF PROPERTY OR LIVES
Priority	INTERMEDIATE
Implementing the Action	
Responsible party	MORRIS TWP SUPERVISORS
Potential partners	?
Potential funding sources	?
Timeline	1 YR.

Action Title	Build up ROADWAY - Wike's ROAD - SUNRISE CAMP ROAD
Assessing the Risk	
Hazard(s) addressed	Hazards - Roadway Failure - Flooding
Describing the Action	
Background/issue addressed	Erosion of Roadway - Flooding
Action description	Grade Roadway, Build up Roadway with DSA
Action category	(Med - High)
Existing or future action	Seeking Funding
Evaluating the Action	
Losses avoided (i.e., benefits)	-
Cost estimate	N/A
Cost effectiveness (i.e., benefit/cost)	-
Priority	High
Implementing the Action	
Responsible party	Oneida TWP
Potential partners	DCNR - Center for Dirt & Travel Roads - PennDot Municipal Services
Potential funding sources	SAME as Above Partners
Timeline	N/A - (ASAP)

## New Mitigation Action Form

Municipality/Organization:	Orbisonia Borough	Huntingdon County
Name and Title:	Stephen Scott	Orbisonia President

Please complete this worksheet for each new mitigation action. See *Mitigation Ideas: A Resource for Reducing Risk to Natural Hazards* for sample mitigation actions to reduce risk from hazards. This resource is located in the resource section of the project website: [https://www.pennsylvaniahmp.com/huntingdon\\_county\\_hmp](https://www.pennsylvaniahmp.com/huntingdon_county_hmp)

Action Title	Antigua Borough Infrastructure - Water
Assessing the Risk	
Hazard(s) addressed	Dilapidated out of DATE water lines
Describing the Action	
Background/issue addressed	Constant water line failure
Action description	Water Authority Relies Broken Water lines.
Action category	Structure Project Implementation
Existing or future action	- Repair Monthly
Evaluating the Action	
Losses avoided (i.e., benefits)	Consistent drinking water
Cost estimate	unknown
Cost effectiveness (i.e., benefit/cost)	updated Borough water lines
Priority	intermediate
Implementing the Action	
Responsible party	Orbisonia Rockhill water Authority
Potential partners	Orbisonia & Rockhill Boroughs
Potential funding sources	unknown
Timeline	

Please email completed forms to [kelly.tessier@mbakerintl.com](mailto:kelly.tessier@mbakerintl.com)

## New Mitigation Action Form
